

# Welcome to Folia

## Intro Guide

*Web Version 5.7*

# About Folia

**We believe that your knowledge matters. In fact, your observations are so powerful, they can have a huge impact on the care you receive.**

We know this thanks to the experiences of our own families.

## Nell's story

My younger brother has CVID, an immunodeficiency. Over the course of 20+ years, my mom has become an honorary immunologist – with bookcases full of journals detailing my brother's symptoms and treatments.

Our family's journey with healthcare has been complicated, and I ultimately decided to go to Yale to study chronic disease. While there, I realized that there was a fundamental hole in our ability to improve the treatments available for many chronic conditions: we didn't have enough data on how well treatments worked for specific types of patients.

Eventually, I put two-and-two together, and recognized that the data I was looking for did exist – it was just in my mom's head!

## Dan's story

Nell put out an ad for a co-founder – someone with coding experience and a first-hand understanding of what it's like to deal with a chronic condition.

I was looking for an opportunity to work on something meaningful, and as the father to a child with Down Syndrome, I was drawn to the idea of improving care quality by empowering other families. I decided to take the leap!

Questions or ideas? Message us in the app or email [rebekah@foliahealth.com](mailto:rebekah@foliahealth.com)

# 1. Figure out what you want to track

**Think of Folia as your notebook.** 📖

You want to track things that are important to you. **What are you paying attention to before your next clinic visit?**

1. **Make a list** of what you want to watch for.
2. **Add** these as symptoms or measurements to your Folia.

Then, add your treatment schedule, and you're all set! To see how to go back and make changes to your Folia, see **Figure A**.

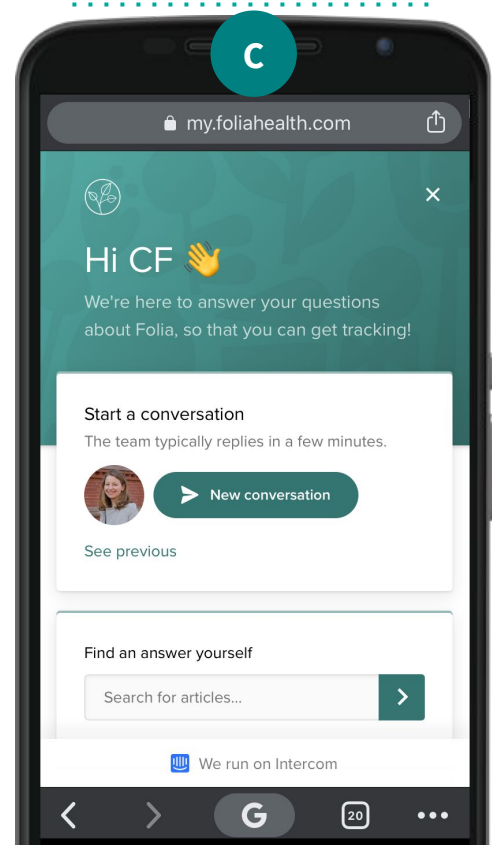

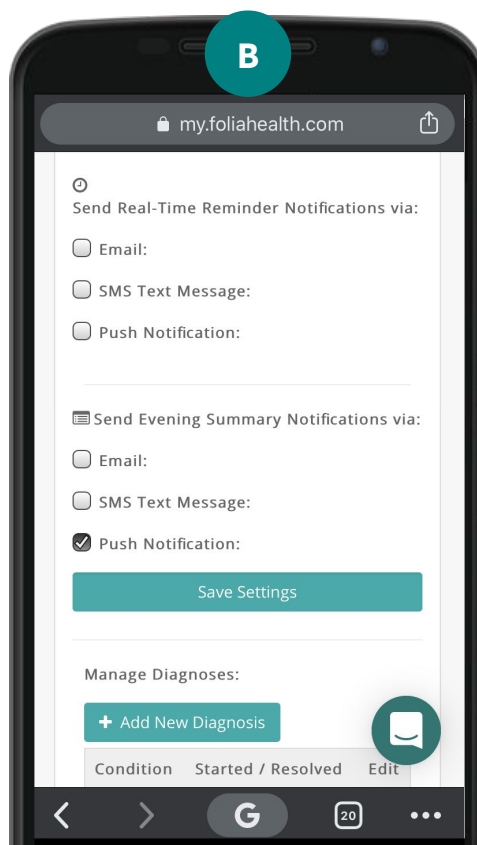

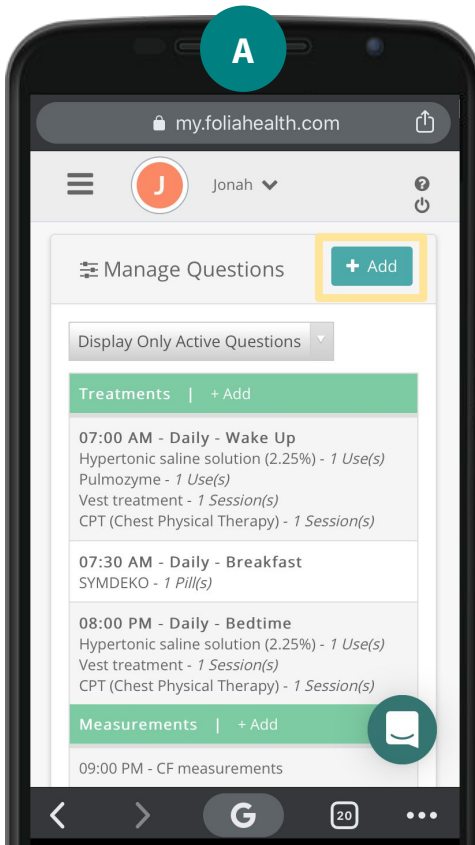

To make sure you get notifications how and when you want them, go to Settings (**Figure B**).

Finally, to ask for help, just message us (**Figure C**).

**Manage > Add**

**Menu > Settings**

**Menu > Ask the Folia Team**

## 2. Decide how you want to track

Why are you using Folia?

To keep track of  
treatments and/or  
symptoms

My clinic asked  
me to

Do you want to focus on tracking exceptions,  
or do you like the idea of collecting more details  
as well?

Details &  
exceptions

Exceptions  
only

### Regular tracker

You track most days, to  
keep on top of  
treatments &  
symptoms. Your graphs  
will look awesome!

### Episodic tracker

You track when you're  
noticing something  
new or different. Use  
the Calendar to fill in  
the normal days!

### Light tracker

You only use Folia to  
prepare for your visit  
and respond to  
research requests.

★ **Extra bonus** ★  
**Data Dividends**  
(Calendar > “↓”)

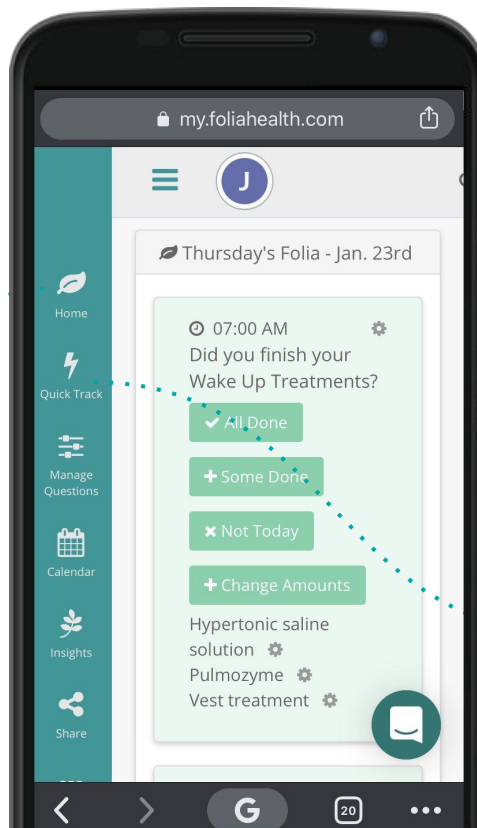

**You can earn gift cards** for your  
contribution to research-grade data.  
Check out the app for more details.

# 3. Get tracking!

## How to track:

### 1. Track what happened today

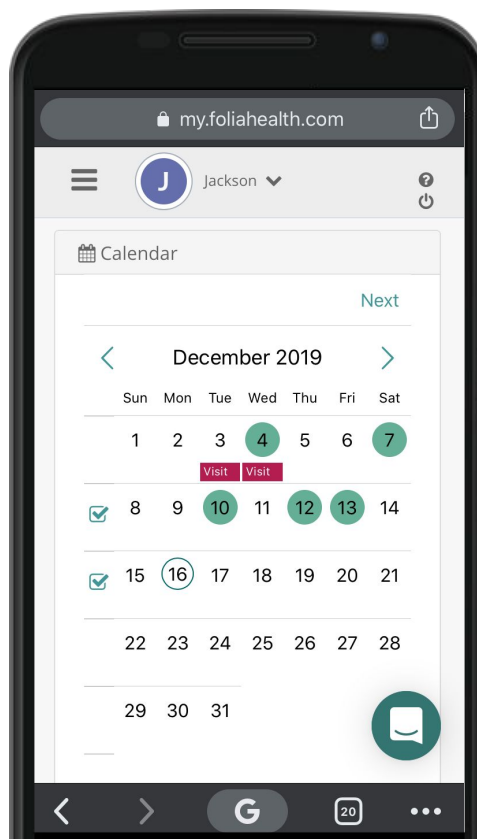

Today's Questions  
Leaf (Home)

### 2. Track something not in your scheduled Questions

Quick Track  
Lightning bolt

### 3. Track multiple days at once, jump to a different day, or fill in blank days

Batch Track  
Go to Calendar and  
select the days

You'll see dots on the  
days that you have  
tracked already.

## 4. Build reports and see trends

*After you have tracked for a while, it's time to check out what's been happening.*

***Go to Graphs to visualize the things you have been tracking and get insight into trends*** for what's happening over a period of time. For example, you can add a graph for a treatment vs. your symptoms, to see if it's working.

***To get a summary of the things you have tracked, tap the Quick Insights button or if you are looking for a comprehensive list, you can tap on the Top Left Menu and tap My Data Tables .***

### Insights >

#### New Graph

Build more graphs with multiple variables to target your goals.

### Insights >

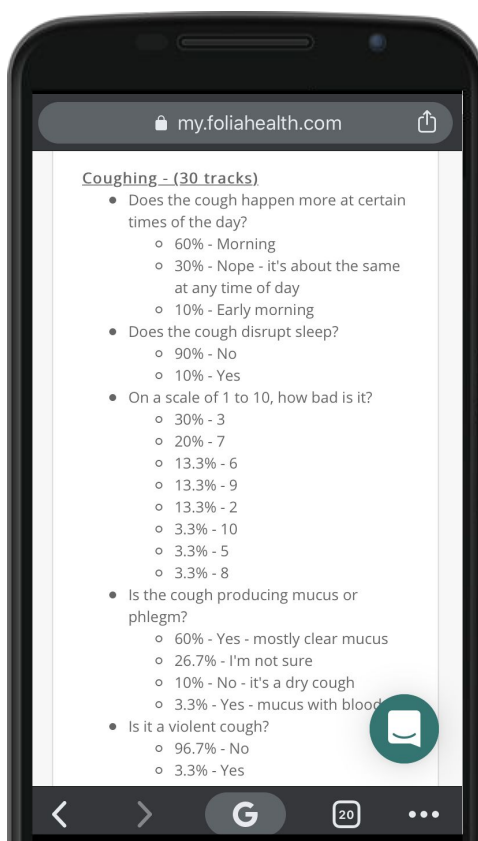

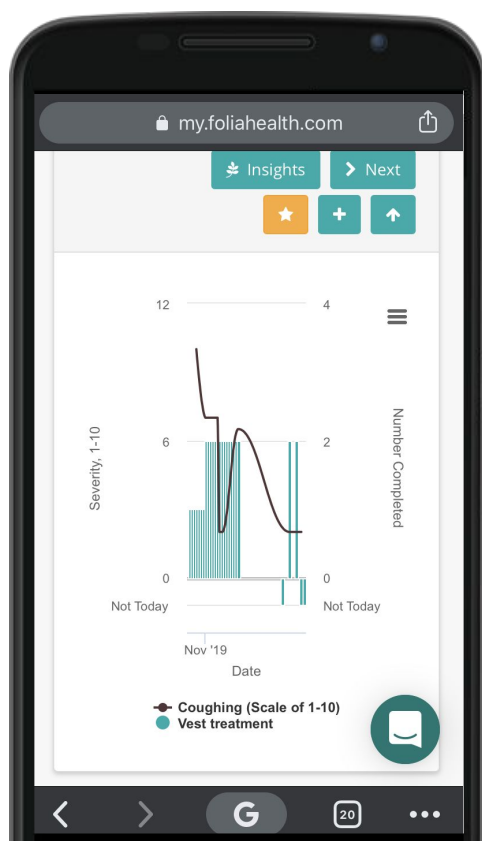

#### Quick Insights

Easily access summary of your tracking.

### Menu >

#### My Data Tables

Get a detailed view of your daily progress & undo any mistakes

The smartphone screen displays the 'my.foliahealth.com' website. The table shows a list of tracking data points, each with a date, a treatment name, and a status. The table is organized into rows. The first row is '12/12/2019 Vest treatment Not Today'. The second row is '12/12/2019 Trikafta (blue pill) Completed'. The third row is '12/12/2019 Trikafta (orange pill) Completed'. The fourth row is '12/10/2019 Hypertonic saline solution Completed'. The fifth row is '12/10/2019 Vest treatment Completed'. The sixth row is '12/10/2019 Pancreatic enzymes Not Today'. The seventh row is '12/10/2019 Trikafta (blue pill) Completed'. The eighth row is '12/10/2019 Pancreatic enzymes Not Today'. The ninth row is '12/10/2019 Pancreatic enzymes Completed'. The tenth row is '12/10/2019 Trikafta (orange pill) Completed'. A chat icon is visible in the bottom right corner.

12/12/2019	Vest treatment	Not Today
12/12/2019	Trikafta (blue pill)	Completed
12/12/2019	Trikafta (orange pill)	Completed
12/10/2019	Hypertonic saline solution	Completed
12/10/2019	Vest treatment	Completed
12/10/2019	Pancreatic enzymes	Not Today
12/10/2019	Trikafta (blue pill)	Completed
12/10/2019	Pancreatic enzymes	Not Today
12/10/2019	Pancreatic enzymes	Completed
12/10/2019	Trikafta (orange pill)	Completed

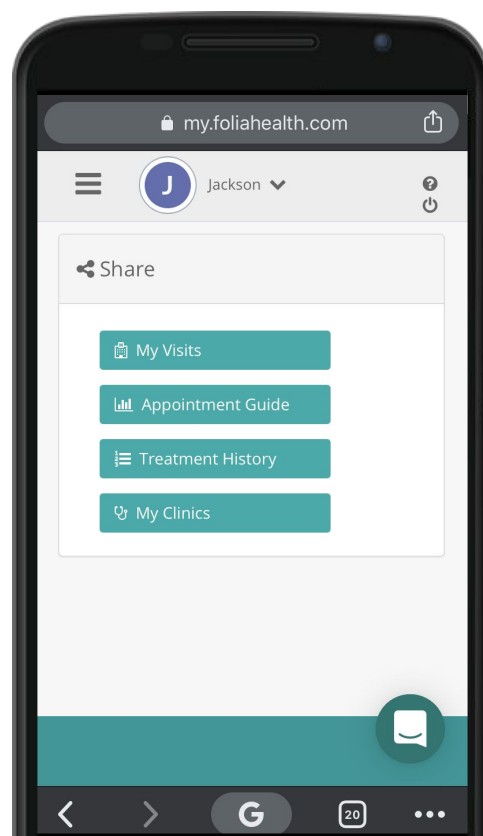

## 5. Share with your clinic

Finally, before your next appointment at the clinic, **go to Sharing to add a Visit.**

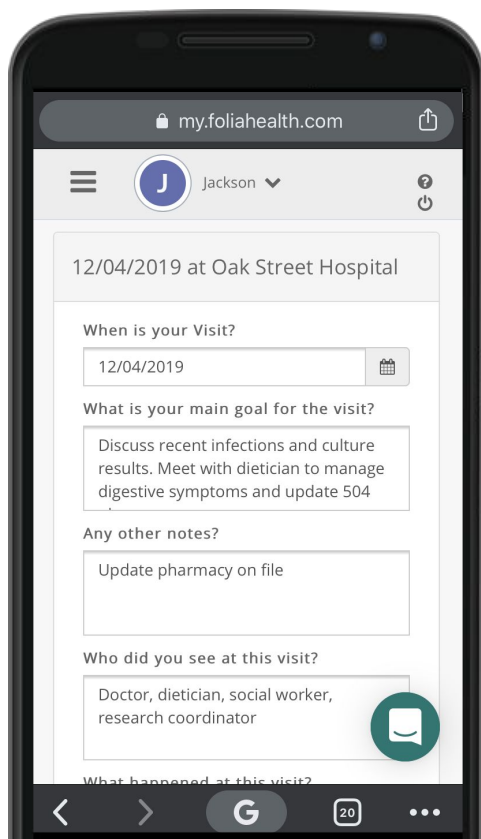

**Then, create an Appointment Guide to communicate more clearly** the things that have been happening since your last visit and provide a roadmap for the discussion with your clinician.

To access clinic features,  
go to **Sharing**

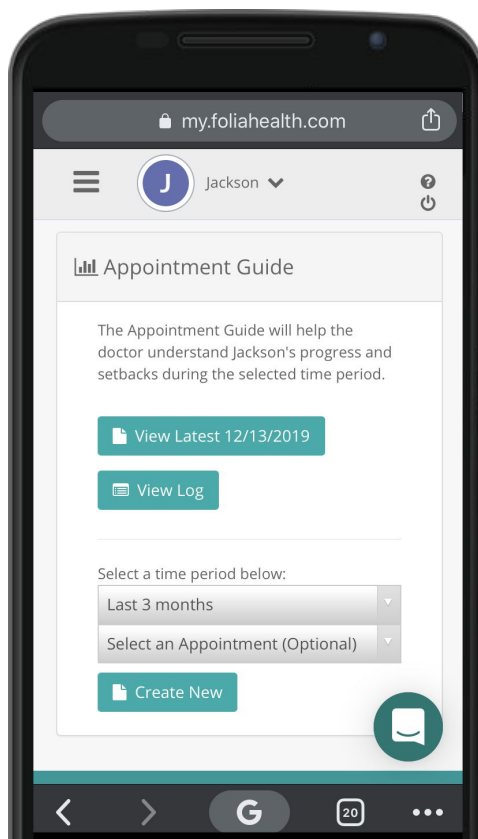

**Answer a few questions about the upcoming visit**

**Sharing >  
My Visits**

**Access your Appointment Guide, with all your notes!**

**Sharing >  
Appointment Guide**

**That's it for now...**

...but there's a lot more,  
including research participation and  
device links!

Check out our weekly emails and bi-weekly  
app updates to learn more about how to  
use Folia to get the most out of your care,  
and give back to your community.
